FEATURES

Want to take a closer look? Learn more about the product in depth by exploring its features and benefits.

Superior power with low emissions

Patented X-torq™ engine that uses air to flush out the cylinder provides exceptional power but keeps fuel consumption and emissions low.

Magnesium blade guard

Contributes to a light weight which gives an improved power-to-weight ratio. New stepless adjustment makes it easier to change cutting position.

Reduced wear

Reduced wear thanks to the drive belt with fully sealed transmission, which keeps out the cutting dust.

Cuts close to walls or ground

Possible thanks to the reversible cutting arm
